

# EARTH GUEST

## OUR HOTEL IS COMMITTED TO PRESERVING THE ENVIRONMENT

Our priorities for contributing to the preservation of our natural heritage:

### ENERGY

- Monitor and analyze consumption every month
- Organize preventive maintenance
- Ensure optimal use of plant and machinery
- Use low energy lamps for permanent lighting
- Use low energy lamps in bedrooms

### OZONE LAYER

- Eliminate appliances containing CFCs

### WASTE

- Recycle paper/cardboard packaging
- Recycle papers, newspapers and magazines
- Recycle glass packaging
- Recycle electrical and electronic equipment
- Recycle ink cartridges

### WATER

- Set objectives for limiting consumption
- Monitor and analyze consumption every month
- Install water-efficient toilets
- Propose to guests to reuse towels
- Eliminate mains water-cooled refrigeration systems

### BIODIVERSITY

- Plant at least one tree every year
- Participate in a local action for the environment

### WASTEWATER

- Collect and recycle used cooking oil
- Separate and collect grease from food stuffs
- Treat waste water or have it treated

### INFORMING AND RAISING AWARENESS

- Raise the hotel's staff awareness of the environment
- Integrate the preservation of the environment in all jobs
- Make our guests aware of environmental issues
- Offer our guests less polluting means of transportation
